

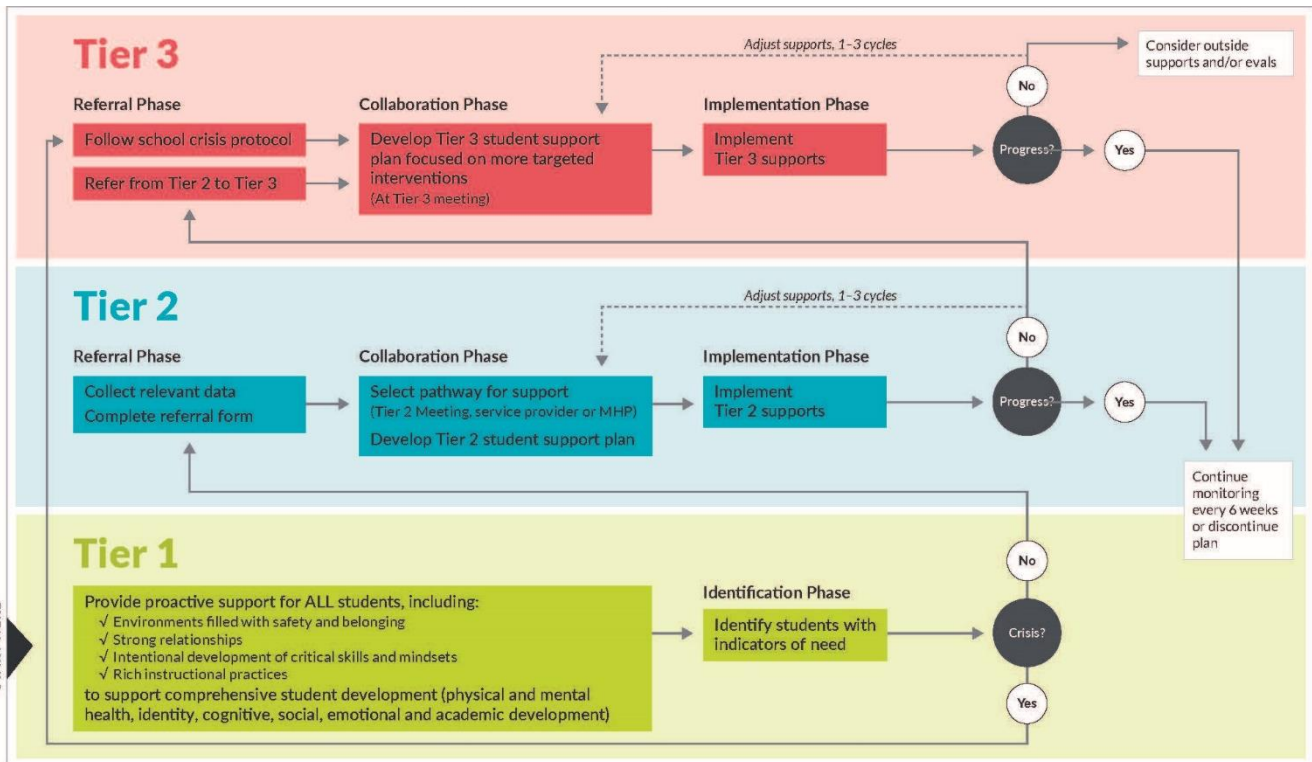

Graphic: How Students Access Supports Within a Tiered System

The following graphic provides a visual of how students might receive access to supports within a tiered system. This visual includes a brief description of Tier 1 universal supports.

These universal supports are included to illustrate a multi-tiered approach, highlighting the necessary foundational, proactive strategies aligned to the creation of a system that reflects the whole child. For the remainder of our discussion on tiered supports, we will be focusing on Tier 2 and Tier 3 levels of support.
